

Memorandum of Understanding

Between

NATIONAL INSTITUTE OF STANDARDS (SARM)

and

**THE STANDARDIZATION ORGANIZATION FOR THE
COOPERATION COUNCIL FOR THE ARAB STATES OF GULF
(GSO)**

on

STANDARDIZATION COOPERATION

Preamble:

The purpose of this Memorandum of Understanding is to establish cooperation and constructive working relations between the Standardization Organization for the Cooperation Council for the Arab States of the Gulf (GSO), representing GSO Members, and the National Institute Of Standards of Armenia (SARM) (herein after called the First Party and Second Party respectively) in order to enhance communication and coordination with a view to boost standardization activities through harmonization of standards, technical regulations and conformity assessment procedures as applied by the Two Parties in accordance with the international practices as outlined in the Annex III of the Technical Barriers to Trade (TBT) Agreement of the World Trade Organization WTO.

Mission Of the GCC Standardization Organization:

The mission of GSO is to help the States of the Cooperation Council for the Arab States of the Gulf (GCC) achieve the objectives set forth in its Charter and in the GCC Economic Agreement by unifying the various standardization activities and following up application and compliance with the same in cooperation and coordination with the standardization bodies in the Member States in an endeavour to develop the production and service sector, foster the intra-GCC trade, protect the consumer, environment and the public health, and encourage the GCC industries and agricultural production that would enhance the GCC economy, maintain the achievements of the Members States and minimize the technical trade barriers as envisaged by the objectives of the GCC Common Market.

Mission of SARM:

The Mission of SARM is to provide complete information on products and services introduced by both manufacturers and service provides, as well as to promote the safety of human life, health, to protect the environment and property.

With the mutual intention of establishing cooperation, consultation, sharing of expertise and training in the fields of Standardization, Metrology, Testing, Quality, Conformity Assessment and Accreditation, the two Parties have agreed to accomplish the following:

Article 1
Objectives

The two Parties seek to accomplish the following goals:

- i- To promote communication between the two Parties.
- ii- To promote cooperation and exchange of information about standardization and related activities between the two Parties.
- iii- To coordinate stances in regional and international arenas in relation to issues of common interests in the field of standardization and its related activities.
- iv- To promote mutual understanding of the roles, functions and specialization of each Party.
- v- To avoid duplication of work efforts where possible.
- vi- To promote awareness in the field of standardization and related activities.
- vii- Exchange of notifications relating to all new proposed regulations at early stage.
- viii- Facilitate and increase the level of trade exchange between the Two Parties.

Article (2)
Scope of Cooperation 1- Standardization

- i- The two Parties undertake to harmonize, as far as possible, in line with International Standard, the standards of the products and services being traded between the GCC Member States and the second Party, with a view to boost their mutual trade.
- ii- Exchanging catalogue of the standards and technical regulations that are published by each Party.
